DESCRIPTION:
The B vitamins and the minerals magnesium and potassium in **Neuro B6** are essential for healthy and proper functioning nerve tissue. These nutrients also help repair injured nerve tissue and facilitate nerve transmission. It was stated in the New England Journal of Medicine that people with higher homocysteine levels had substantially increased blockages of their carotid arteries. Homocysteine is recognized as an important indicator for atherosclerosis. Vitamins B₆ and folic acid convert homocysteine into the amino acid methionine and B₆ converts it into cysteine. These B vitamins lower homocysteine levels making it harmless.

The nutrients in **Neuro B6** play a major role in helping the body deal with stress. Stressful times deplete B vitamins and magnesium causing deficiencies of these essential stress fighting nutrients leaving the body unprotected.

ACTIVES:

**Vitamin B₆** - There are three forms of vitamin B₆: Pyridoxal and Pyridoxamine are natural and Pyridoxine is synthetic. This co-enzyme form - B₆ Pyridoxal-5-Phosphate - is the form in which the body utilizes vitamin B₆. Since no conversion is necessary of the B in **Neuro B₆**, it is better absorbed, faster acting and lower dosages are required.

**Vitamin B₁₂** - Resin Ion Carrier protects the B₁₂ from gastric acids and delivers it to the small intestine. In this alkaline medium, the resin releases Vitamin B₁₂, therefore making it available for maximum absorption. A recent independent study has shown that ion resin provides nearly twice as much Vitamin B₁₂ absorption as any other oral form, including sublingual.

**Magnesium, Potassium and vitamin B₆**
1. Are necessary for proper heart rhythm.
2. Prevent muscle cramping.
3. Have a calming effect on the nervous system.
4. Controls the sodium: potassium pump releasing excess fluid, reducing edema and benefiting blood pressure.
5. Magnesium prevents the formation of oxalate kidney stones by controlling calcium metabolism.

**B₁₂ and Magnesium** in high enough levels are important for the menstruating female because they negate the effects of excess estrogen such as: salt and fluid retention, breast stimulation, proliferation of the endometrium, depression, headaches, blood sugar control, cravings, blood clotting, increased body fat, and decreased libido.

**60 tablets per bottle**

<table>
<thead>
<tr>
<th>One tablet provides:</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Thiamine (Vitamin B1)</td>
<td>10 mg</td>
</tr>
<tr>
<td>Riboflavin (Vitamin B2)</td>
<td>10 mg</td>
</tr>
<tr>
<td>Niacinamide</td>
<td>25 mg</td>
</tr>
<tr>
<td>Vitamin B-6 (as Pyridoxal-5-Phosphate/Pyridoxine HCl)</td>
<td>100 mg</td>
</tr>
<tr>
<td>Folic Acid</td>
<td>400 mg</td>

<tr>
<td>Vitamin B-12 (as Resin Ion Carrier)</td>
<td>400 mg</td>
</tr>
<tr>
<td>Pantothenic Acid</td>
<td>50 mg</td>
</tr>
<tr>
<td>Magnesium (from Albion Amino Acid Chelate)</td>
<td>50 mg</td>
</tr>
<tr>
<td>Potassium (from Albion Amino Acid Complex)</td>
<td>50 mg</td>
</tr>
<tr>
<td>Adrenal</td>
<td>30 mg</td>
</tr>
<tr>
<td>Choline (from 50 mg Choline Bitartrate)</td>
<td>23.5 mg</td>
</tr>
</tbody>
</table>

Other ingredients: Cellulose, Vegetable Stearate and Silica.

CLINICAL INDICATIONS:
- N: Neuralgia
- S: Neuritis
- A: Anxiety
- C: Cardiovascular Protection
- K: Kidney Stones
- P: PMS
- S: Stress
- R: Reflex Sympathetic Dystrophy (RSD / CRPS)
- E: Peripheral Neuroopathy

SUGGESTED USAGE:
Take 1-2 tablets daily with or without meals.

CONTRAINDICATIONS: None Known

DRUG INTERACTIONS: None Known
